

HARRISON ODIAKA EBUBE

SENIOR SOFTWARE ENGINEER | MOBILE & WEB | BACKEND | BLOCKCHAIN

+234-(0)-806-258-5929 • harrison.o.ebube@gmail.com • linkedin.com/in/harrison-ebube/

PROFESSIONAL SUMMARY

Senior software engineer specializing in mobile, web, backend, and blockchain-enabled applications. Experienced in building and maintaining fintech, healthcare, agricultural, investment, and counselling platforms; integrating APIs; improving application performance and stability; and collaborating across engineering, product, UX, and business teams. Strong background in Agile delivery, microservices, and scalable digital products.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, React Native, React, Python, PHP, Laravel, Vue, Slim-PHP, HTML, CSS

UI & Styling: Bootstrap 4/5, Tailwind CSS, styled-components

Engineering: REST/Third-Party API Integration, Blockchain Integration, Microservices, Mobile Performance Optimization, Testing & Debugging, CI, Agile, Lean, XP

PROFESSIONAL EXPERIENCE

The Restore Capital | Remote — USA

Dec 2024 – Present

Senior Mobile & Web Developer

- Designed and developed The Restore Capital investment platform, supporting transparent investment opportunities and long-term wealth-building initiatives.
- Continuously maintained and enhanced the Savewyze and Atra mobile applications, delivering feature updates, security improvements, performance optimization, and stability enhancements based on user feedback.
- Supported development of the Atra mobile app and ongoing maintenance and updates to the Savewyze mobile app.

Toronet | Rocky Point, NY, USA — Remote

Senior Mobile & Web Developer

- Integrated blockchain and third-party APIs to enable secure, transparent transaction workflows.
- Optimized mobile performance for on-chain and off-chain interactions to improve application responsiveness and user experience.
- Collaborated with blockchain engineers, UX designers, and product managers to deliver scalable and secure applications.
- Developed the Agrifi Lending Pool, a web application leveraging the Toronet Blockchain to fund 600 farmers.

Faceless Counselling | Abuja, Nigeria — Remote

Senior Software Engineer

- Led a team of four in an Agile environment to develop and publish the Faceless Counselling mobile app for Android and iOS.
- Managed product backlogs, issues, and roadmap priorities to support timely application delivery.
- Conducted testing and debugging that resulted in a 97% crash-free rate and improved application performance and user experience.
- Maintained code documentation and development standards to support long-term maintainability.

Senior Mobile App Developer

- Designed and developed the Remedial Health Customer App, enabling pharmaceutical sales to 5,000+ stores across Nigeria.
- Developed an After-Sales Payment Service Plan that improved access to essential healthcare products and contributed to a 45% increase in sales for hospitals, chemists, and pharmacies.
- Developed the Remedial Agent App, used by 900+ agents across six states to streamline wholesale pharmaceutical distribution.
- Implemented sales management, customer request handling, agent inventory tracking, and store visit modules, providing real-time operational insights and improving workflow efficiency.

Cellulant Nigeria Limited (TPG Portfolio Company) | Abuja, Nigeria — On-site

Nov 2016 – Mar 2021

Backend Developer

- Worked with business, operations, regional, and local teams on Agrikore and Tingga to deliver sustainable product solutions aligned with local market needs.
- Supported the Agrikore agricultural marketplace connecting farmers, aggregators, and food processors, including blockchain integration for the Agrikore Blockchain.
- Rebuilt a monolithic system architecture into microservices, improving system stability and performance by 30%.
- Provided technical and strategic support for the distribution of \$2B+ in farm inputs, subsidies, and support materials to 5M+ farmers and interest groups across Nigeria, Ghana, and Liberia.
- Developed USSD access channels enabling farmers to engage with agricultural sales operations across multiple Nigerian states.
- Applied Agile, Lean, Continuous Integration, and XP methodologies to drive implementation and delivery.

EDUCATION

Federal University of Benin — Edo, Nigeria | B.Sc. Computer Science | 2008 – 2012
